

APRIL 2018 SWAP STAMP CLASS

1. Supplies and instructions given are for my version of the swap.
2. Remember that the DSP, some stamp sets, some ink pads and cardstock colors, and the 1-3/8" punch are on the retiring list. So.... You can either try to order them, or use what you have and make substitutions for what you don't have.
3. The Original Swap is pictured on the left. My version is on the right.

CARD 1-CREATIVE EVERY DAY CARD

I did really like the Black & White of the original swap made by Julie Sperman. I did not have the Petal Passion DSP she used. So I changed the DSP and ink colors.

SUPPLIES:

Stamps: Crafting Forever Wood Mount #

Ink: Dapper Denim

Cardstock: Dapper Denim
Whisper White

[Eastern Palace Specialty Designer Series Paper \(DSP\) #144147](#)

Big Shot: [Quilt Top Embossing Folder #144687](#)
Layering Circles Framelits #

Punch: 1-1/2" Circle #

Embellishments: [Night of Navy 3/8" Corduroy Ribbon #145597](#)

Adhesive: Tombow Glue (Yes, this is all I used! You can add Stampin' Dimensionals if you want.)

INSTRUCTIONS:

1. Cut your papers:

~Dapper Denim card base at 5-1/2" x 8-1/2". Score and fold at 4-1/4".

~Whisper White card front at 4" x 5-1/4". Run through Big Shot with Quilt Top embossing folder.

~DSP at 2-5/8" x 4". (Original was 2-1/4" x 4". I was doing this at night. I must have been tired and got the measurement wrong.)

~Dapper Denim Circle: Use the largest smooth Circle Framelit.

~Whisper White Circle: Stamp your Pens in Dapper Denim ink on Whisper White cardstock. Cut out with the largest Scallop Circle Framelit. Line up the pen points so they are in a scallop and don't get cut off.

~Stamp your sentiment in Dapper Denim ink on Whisper White cardstock. Punch with the 1-1/2" Circle Punch.

2. Put your card together.

~Glue your embossed card front onto your card base.

~Glue on your DSP.

~Glue your two large circles together.

~Lay out your circles on your card front. First glue down the punched sentiment, then the larger pen circles.

~Cut two 1-1/2" pieces of ribbon. Cut the one end of each at an angle. Glue onto large circle.

Your card is finished.

CARD 2-CENTER FOLD CARD

The Original Swap was made by Sharon Cheng. It took me quite a while to figure out all the measurements and how to get the fold even, as no details were given. This is a fun card to make! Choose any Designer Series Paper you want and coordinating cardstock.

~Cut Four DSP rectangles at 1-7/8" x 2-7/16" .

~Lay out your DSP as you want them on the card front.

~Put the Template on the DSP so the fold will be in the center of the card. Fold the corner. (Yes you can pick up the DSP to fold it. Just keep the folding corner of the Template in the same position. Otherwise you will have to rearrange your DSP or turn some over and use the DSP back side.

~Glue the two top Folded DSP pieces to one of the Tranquil Tide Card Front Layers making sure the fold are in the center. Glue the last two DSP pieces to the other Tranquil Tide DSP layer again making sure the folds open in the center.

~Now lay out the Card Front Layers on the card base. Glue into position.

3. Punched Sentiment. Choose your sentiment. Stamp on Whisper White cardstock with Tranquil Tide ink. Punch with one of the Circle Punches. If your sentiment is punched out with the 1-3/8" circle punch then also punch a 1-3/4" Lemon Lime Twist circle. Attach punched sentiment to card front with Stampin' Dimensionals. Your card is finished.
