**Adhesives:** Tombow Glue

Stampin' Dimensionals

**Tools-Optional:** [Stamp-a-ma-jig #101049](#) OR [Stamaparatus #146276](#) available June 1st

# CARD 1-THINKING OF YOU

Made by Nendy Kerr  
[www.nendyscreativecorner.com](http://www.nendyscreativecorner.com)  
Products (c) Stampin' Up!

All stamping for this card is done directly on the card base.

**1.** Cut your Whisper White card base at 5-1/2" x 8-1/2". Score and fold at 4-1/4".

**2. Stamp:**

~Tree in Chocolate Chip ink slightly off center to the left.

~Leaves in Lemon Lime Twist ink twice over the tree branches. Stamp the second time at a slight angle so the leaves are in a slightly different position.

~Grass in Lemon Lime Twist ink. Once on the left side, once on the right overlapping the center at the tree trunk.

~Swing in Memento Black ink on the underside of a branch. Make sure the swing is not dragging on the grass.

~Thinking of You in Memento Black ink in upper right corner.

~Bicycle Wheels in Memento Black ink on the right side on the grass.

~Bicycle Frame in Real Red ink. I found it helpful to use the Stamp-a-ma-jig to help get the Frame in the correct position. It is rather confusing to position by just looking at it.

Your card is finished.

## CARD 2-CIRCLE SPOTLIGHT LEAVES

1. Cut your Thick Whisper White card base at 5-1/2" x 8-1/2". Score and fold at 4-1/4".
2. Cut your Whisper White card front at 4" x 5-1/4".
3. Stamp 3 trees in Chocolate Chip ink with the center tree closer to the bottom edge of the card front and the side trees at about 3/4" from the bottom edge.  
~Run through the Big Shot with the Pinewood Planks Dynamic embossing folder: Sandwich=Big Shot Platform without Thin Die Adapter (or Multipurpose Platform with Tab 1 open), Dynamic embossing folder with card front inside, top cutting plate.
4. Stamp 1 Tree in Chocolate Chip ink on Lemon Lime cardstock and 2 Trees in Chocolate Chip ink on Garden Green cardstock. Cut the Branches out as shown with the Stitched Shapes Circle Framelits:  
~Lemon Lime Twist with the second largest Stitched Shape Circle,  
~Garden Green with the largest Stitched Shape Circle trying to make them the exact same position around the tree branches and trunk.
5. **Put it all together.**  
~Glue the Garden Green Circles over the two outside trees trying to position them the distance on the tree trunk. Yes, mine stick over the edges slightly.  
~Use Stampin' Dimensionals to attach the Lemon Lime Twist Circle over the center Tree Trunk.  
~Wrap some Copper Trim around the card front and tie a bow in the center.  
~Glue card front to card base.  
~Trim Garden Green circles if necessary.  
Your card is finished.
